ZERO VOC

All the data collected in this document are based on tests carried out in our laboratories

The product should not be used for purposes other than those specified without first having instructions in writing. It is always the user's responsibility to take suitable measures in order to comply with the requirements established in local legislation. Product safety sheets are available for professionals. This technical data sheet will be valid until a new edition appears.

CONCENTRATES - COLOR CONCENTRATES

The chart and the concentrate that we send you will be in grams and not in milliliters, so you should weigh the amount shown with a weighing scale. The Cemher color concentrates are mainly used as primary colors with which to obtain the whole Cemher® color chart.

Its use in the different Cemher microcements will allow to tint the Cemher® microcements.

COLOR CHART - TABLE OF MIXTURES

Paste microcement

Pigment	Dark	Onyx	Cement	Xenon Grey	Magnetic	Hakuba	Perla	Bone
White		95,372g	124,411g	159,909g	204,034g	218,723g	241,302g	246,593g
